FRONTEND DEVELOPER

Proactive and detail-oriented React.js Developer with 2 years of experience building responsive web applications. Proficient in JavaScript, React.js, HTML5, CSS3, and Firebase. Strong grasp of component-based architecture, global state management, and RESTful APIs. Adept at delivering clean, maintainable code and collaborating with cross-functional teams to meet business goals. Completed Bachelor's in ECE with strong practical exposure to full-stack projects.

STRENGTHS AND EXPERTISE

- **HTML**
- **JavaScript**
- **Node.js**
- **Firebase**
- **Bootstrap**
- **CSS**
- **React.js**
- **MySQL**
- **React Native**

EDUCATION

- **B.E. in Electronics and Communication Engineering**, KGISL Institute of Technology – 2016–2020
- **Higher Secondary (12th)**, Sambaviga Higher Secondary School – 2014–2016
- **Secondary School (10th)**, Oxford Higher Secondary School – 2013–2014

PROFESSIONAL EXPERIENCE

Dhya innovations Private limited
Associate Front-End Developer

AUG 2023 - Present

Associate Front-End Developer Proficient in developing highly responsive user interfaces for mobile and web platforms using React Native and React.js, enhancing user engagement and satisfaction.

Web Development:

- **Aquaintelli (Aquaculture Application):** Built a responsive aquaculture management web app with multilingual support, modern UI, and efficient state architecture.
- Used **Chakra UI** for accessible, responsive, themable components.
- Implemented **i18next** for dynamic language switching.
- Managed server state with **TanStack React Query** for real-time data fetching, caching, and updates.
- Handled global state via **Zustand** for synchronized user preferences and sessions.
- Integrated **Swiper.js** for smooth card-swiping interactions.
- Followed modular, maintainable coding practices with clear component and state isolation.
- **HHT Website:** A dynamic and interactive website for musical artists, featuring five main sections: Events, Profile, Careers, HHTHub, Merchandise, and FanFam.
- Built with **React.js, JavaScript, HTML5, CSS3, Bootstrap 5**, and **Firebase**.
- Used **useContext** for global state sharing and **React Router** for seamless navigation.
- Integrated **Firebase** for OTP and Google authentication.
- Ensured full responsiveness using **Bootstrap 5** for optimal cross-device performance.
- Connected APIs via **Axios** for data retrieval and submission.
- I have shared the github link of my project for your further reference
- <https://github.com/ganeshkumar19/hhtwebapp.git>

App Development:

- **Metro City Developers (Real-Estate App):** Built a React Native mobile app with three user roles—Customer, Admin, and Sales Officer—each with dedicated login screens and functionalities.
- Implemented **React Navigation** with native stack and bottom tab navigators for smooth role-based navigation.
- Managed global state using **Context API** for consistent data sharing across screens.
- Integrated **Axios** for CRUD operations on listings, sales records, and user profiles via REST API.
- I have shared the github link of my project for your further reference:
<https://github.com/dhya-farms/MetroReactNative.git>

CUSTOMER CARE EXCECUTIVE

- I Handled Telecom back office transactions. Comprehend customers queries / Complaints / as daily tasks.
- I Providing quick and effective resolution to the customer queries.
- I Worked on shifts during peak seasons as per business requirements and made available 24/7
- I Worked on P1 incidents and shared the timeline to the respective team for the root cause findings.

Training And Courses

FULL STACK DEVELOPMENT COURSE | BESANT TECHNOLOGIES

- HTML: Proficient in creating structured and semantic web pages using HTML5.
- CSS: Skilled in styling web pages and implementing responsive designs using CSS3 and CSS frameworks like Bootstrap.
- JavaScript: Proficient in client-side scripting, DOM manipulation, and asynchronous programming using JavaScript.
- React: Completed React course, acquiring in-depth knowledge of React fundamentals, component-based architecture, state management, and API integration.
- Python: Proficient in Python programming language, with a focus on back-end development. Developed applications and scripts using Python.
- MySQL database: Completed MySQL database course with expertise in database management. Proficient in writing complex SQL queries, including joins, subqueries, and stored procedures.

Personal Details

- Date of Birth : 19.10.1998
- Gender : Male
- Father’s name : Thennavan Seeralan.K
- Mother’s name : Rani.T

DECLARATION

I HEREBY DECLARE THAT THE ABOVE INFORMATION IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE.

TECHNICAL PROJECTS

SHOPKART (E-COMMERCE WEBSITE DJANGO/PYTHON)

- Developed Shopkart, an e-commerce website using Django framework and Bootstrap 5 for front-end design and utilized Django's Model-View-Template (MVT) architecture and Python to manage data models, views, and templates effectively.
- Leveraged Django's built-in authentication and user management system to provide secure user accounts.

GitHub Repository:

- I have shared the github link of my project for your further reference.
- <https://github.com/ganeshkumar19/shoppingwebsite-django.git>

TOURISTA(TRAVEL-WEBSITE REACT))

- Developed Tourista, a travel website using React, featuring individual components for the home, about, contact, and service pages.
- Utilized React's component-based architecture to create reusable UI components, improving code maintainability and efficiency.
- Integrated React Router's BrowserRouter to enable smooth navigation between different pages
